## GREEN PRACTICE

### *7.1.7 Initiatives taken by the institution to make the campus eco-friendly*

The institution adopts environment friendly practices and takes necessary actions such as – energy conservation, rain water harvesting, waste recycling, carbon neutral etc. The environmental consciousness is given priority at the time of making strategic plan for development. The college realizes the necessity for creating awareness on eco-friendly atmosphere among the students so that they can practice such ideas in their personal lives. The institution aspires to create a Clean and Green Campus.. The institution takes all measures and precautions to ensure the campus is free of plastic materials and other harmful wastes. The institution follows the policy of Reduce, Re-use and Re-cycle. Separate dustbins are provided in the campus for dry wastage and wet wastage.. The institution spends a lot to make the campus green and clean and eco-friendly.

## GREEN PRACTICE

### 1. WATER CONSERVATION •

**Rain water harvesting** Rain water harvesting is of utmost priority to the institution. Rain water is collected in the tanks kept near Hemukalanoblock .Water Harvesting: There are two Square tanks placed underneath the campus. The rain water gets collected at every block and fed into a rain water harvesting tank to preserve the underground water. Each tank is 10X10 feet square and it is 8 feet deep. There are two wells at different locations in the campus for Groundwater Recharge •

**Sewage water purification plant** The institute has installed a Sewage Water Purification Plant which purifies and treats the sewage water which is then reused in areas like the garden and sports field. • Informative Posters are put up in all departments educating Students regarding the necessity of water conservation •

### 2. ENERGY CONSERVATION

The Campus maintains multiple SOLAR PANELS to derive energy from natural sources • Every block in the institution has individual power control panels and energy meters installations, which help in individual effective monitoring and control of energy consumption. • The UPS batteries are maintained in good condition and regularly checked, which reduces energy consumed for charging batteries. • Energy conserving lights like CFL, T5 tube lights and LED's are used in the campus. • Informative Posters are put up in all departments educating Students regarding the necessity of energy conservation

**3. REDUCE CARBON FOOT PRINT** The institution has taken up certain preventive measures to check the emission of carbon dioxide. The parking facility is provided for the students' in an open ground which helps in preventing the accumulation of pollution caused by vehicles to a maximum extent.

## GREEN PRACTICE

### 4. GREEN PRACTICE

The institution displays sensitivity to issues like climate change and environmental issues. It adopts environment friendly practices and takes necessary actions such as – energy conservation, rain water harvesting, waste recycling, carbon neutral etc. The environmental consciousness is given priority at the time of making strategic plan for development. The college realizes the necessity for creating awareness on eco-friendly atmosphere among the students so that they can practice such ideas in their personal lives. The institution aspires to create a Clean and Green Campus

### 5 PAPERLESS OFFICE

In New Horizon College, all the correspondence made to the teaching and Non-teaching staff are through mail. It Creates a work environment in which the use of paper is eliminated or greatly reduced. This is done by converting documents and other papers into digital form, a process known as digitization. Proponents claim that "going paperless" can save money, boost productivity, save space, make documentation and information sharing easier, keep personal information more secure, and help the environment.
