Key findings from the survey

1. A high percentage of students (95%) expressed complete satisfaction over the quality of Teaching Learning in our college.
2. Students have expressed overall satisfaction regarding the syllabus completion and laboratory experiments, and fairness of internal evaluation, mentorship programs, skill development programs run by the college.
3. Students appreciated teaching and implementation of learning outcome-based curriculum which includes continuous evaluation and assessment of students throughout the semester.

4. Students have also acknowledged Hands on Sessions and interdisciplinary learning programs, NSS Camps, organization of various seminars. This has helped students in learning other subjects/practical, which were beyond their prescribed curriculum.

Recommendations

The SSS has also pointed out few grey areas where the college/ teachers/ departments do have scope for enhancement in quality of education. They are as follows:

1. A good number of students suggested the institution a mechanism to do an entire SWOT analysis of each student both on the curricular and extra curricular grounds. They emphasized that it will have an opportunity for them to understand the most relevant industry for them to work in and also to regularly check how industry ready they are.

2. Students, emphasizing on the importance of research in today's innovative world, suggested the curriculum to be more oriented towards self research and learning.

3. Students also suggested the institution to take a more interdisciplinary approach to make them all – rounders so that they could be flexible enough to perform multi functions in their work arena in the future.
