ANNUAL GENDER SENSITIZATION ACTION PLAN 2021-2022

Introduction

Gender equality and women's empowerment are two of New Horizon College's top priorities. Our institution work to transform people's attitudes for the better and encourage gender equity. The future of education and transformation in our society will be ushered in by fostering equality and banning discrimination based on caste, sex, and religion. As a result, one of the key components of our institution is the requirement for a secure workspace for faculties and students on campus.

With our efforts, we promote a more equitable society and work to alter negative stereotypes. The College recognize that, providing a welcoming environment for women is crucial to achieving gender parity, and therefore they dedicate resources to initiatives that advance these causes. Through extracurricular activities including workshops, seminars, guest lectures, special lectures, etc., the institution promotes gender sensitization. Periodically, awareness campaigns are held about issues including the value of human rights, the rights of women in domestic disputes, and cyber security awareness campaigns pertaining to the safety and security of women employees and students. Safety for women is one of the primary concerns of the college and therefore multiple CCTV cameras are installed at all the vital points in the campus. The institution includes a mentoring program to look after the academic, emotional, social, and cognitive growth of the students. As a result, the Women's Development cell at New Horizons believes that gender sensitization programs will play an important role in fostering conversations about gender equality cell aims to enhance understanding of issues related to women and to make the college campus a safe place for them.
