6. Students have more exposure in cultural and self-motivated event platform for improving their confidence

Recommendations

The SSS has also pointed out few grey areas where the college/ teachers/ departments do have scopefor enhancement in quality of education. They are as follows:

1.A good number of students suggested the institution a mechanism to do an entire SWOT analysis ofeach student both on the curricular and extra curricular grounds. They emphasized that it will have anopportunity for them to understand the most relevant industry for them to work in and also to regularly check how industry ready they are.

2. Students also suggested the institution to take a more interdisciplinary approach to make them all –rounders so that they could be flexible enough to perform multi functions in their work arena in the future.
