Event Name: MOCKATHON - DAY 3 (Project Showcase & Presentation)

Date: 25th October 2025

Timings: 10:00 AM onwards

Target Audience: All BCA Students

Venue: Chanakya Seminar Hall

Organized by: IT CLUB

Faculty Coordinator: Ms. Alka Sinha

Student Coordinators: Mr. Rohit Sagar, Mr. Gourav Singh & Mr. Jagdish Das

Brief description of the event:

The culminating day of Mockathon witnessed an impressive showcase of innovation and creativity as participating teams presented their completed projects before the esteemed Spotlight Judge, Dr. Nagraj, Head of the BCA Department. The Chanakya Seminar Hall transformed into a professional presentation arena where students demonstrated the outcomes of their intensive 3-day journey from ideation to implementation.

Each presentation showcased remarkable technical achievements and creative problem-solving. Teams confidently explained their technology choices, architectural decisions, and implementation strategies. The demonstrations revealed fully functional prototypes addressing real-world problems through innovative technological solutions. Projects spanned diverse domains including healthcare, education, sustainability, e-commerce, and social impact, reflecting the breadth of student interests and capabilities.

Dr. Nagraj provided valuable feedback to each team, appreciating their efforts while offering constructive suggestions for improvement. His industry insights and academic expertise helped students understand how to refine their projects further and align them with real-world requirements. The interactive Q&A sessions challenged teams to think critically about scalability, user experience, and practical deployment considerations.

Celebrating Innovation and Learning

The Mockathon successfully achieved its objectives of providing real hackathon experience, fostering teamwork, enhancing technical skills, and building confidence in public presentation.

Mockathon's Impact on Student Development

In this 3-day Innovation Challenge, participants gained invaluable experience in rapid prototyping, time management under pressure, collaborative development, and professional presentation skills. The event strengthened the college's position as an institution that actively prepares students for industry challenges through practical, hands-on learning opportunities.
