Guest Lecture Revolutionising Industries with SAP- College to Campus Transition

Date: 25th September, 2025

Time: 10:00 AM - 11:30 AM

Title of the Event: Revolutionising Industries with SAP- College to Campus Transition

Venue: Chanakya Seminar Hall

Target Audience: I year BCA Students

Organised by: Guest lecture committee in association with the Department of BCA & IQAC

Faculty Coordinators: Ms. Chaithra N, Ms. Ashwini Crasta, Ms. Sunitha S

Student Coordinators: Ms. Madhushree Y, Ms. Payal

About the Event

Guest lecture committee in association with Department of BCA & IQAC conducted a guest lecture for 1st year BCA students.

Objectives

1. To create awareness among students about the role of SAP in transforming and streamlining business operations across various industries.
2. To bridge the gap between academic knowledge and real-world industrial practices through insights from an industry expert.
3. To familiarise students with the different modules and career opportunities available in SAP and Enterprise Resource Planning (ERP) systems.
4. To guide students on the essential skills and competencies required for a smooth transition from college life to a professional corporate environment.

A guest lecture on the topic “Revolutionising Industries with SAP - College to Campus Transition” was organised by the guest lecture committee in association with Department of BCA and IQAC on 25th September 2025 for 1st year BCA students. The session aimed to bridge the gap between academic learning and industry requirements, providing students with valuable insights into the world of SAP and its significance in modern business operations.

The resource person for the session was Mr. Harsha Vardhan Singh, SAP, ABAP, BTP developer at Accenture who has extensive experience in the field of SAP.

Key Highlights of the Session

The speaker began the lecture by explaining the concept of SAP (Systems, Applications, and Products in Data Processing) and its role in integrating different business functions such as finance, human resources, logistics, and supply chain management. Real-world examples were shared to demonstrate how SAP solutions are revolutionising industries by enhancing efficiency, transparency, and decision-making.

The session further focused on how students can prepare themselves for a career in SAP-related fields. The speaker emphasised the importance of developing both technical and analytical skills, understanding business processes, and being adaptable to new digital tools.

Students were guided on the transition from college to corporate life, highlighting the qualities expected by employers, such as teamwork, problem-solving ability, and continuous learning. The lecture also introduced various SAP certification programs and career pathways available to graduates.

An interactive Q&A session followed, during which students clarified their doubts about SAP modules, job opportunities, and industry expectations. The session was highly engaging and informative, sparking interest among students to explore ERP systems and digital transformation tools.

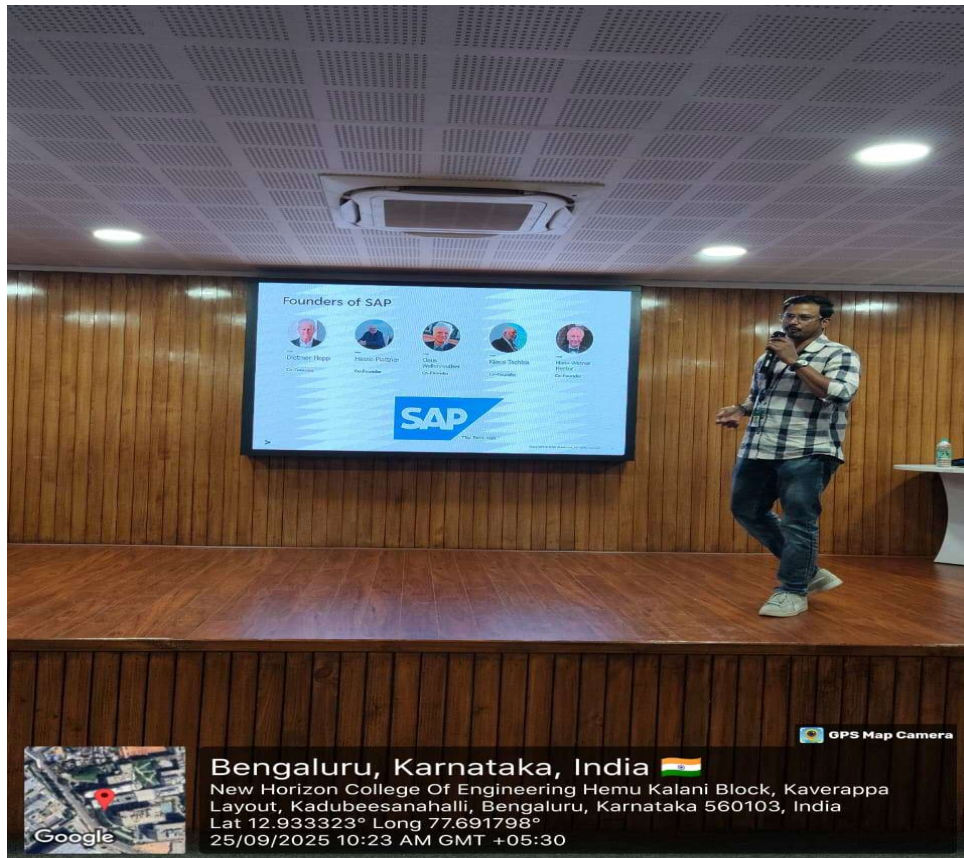

Conclusion

The guest lecture was a great success, providing students with a clear understanding of how SAP is transforming industries and how they can align their academic learning with real-world applications. The session inspired students to equip themselves with the skills needed for a smooth college-to-corporate transition.

Ms. Madhushree welcomed the gathering and introduced the speaker to the audience by reading his profile. Ms. Payal expressed gratitude with vote of thanks. The speaker was presented with a memento as a token of appreciation. Ms. Manasa compered the programme.
