

LEO CLUB

TREE PLANTATION DRIVE 2025

Date: 12th September 2025

Teacher coordinator: Ms Nischitha B P

Student coordinator: LEO club team

Introduction:

The Leo Club successfully organized a Tree Plantation Drive 2025 with the aim of promoting environmental sustainability and raising awareness about the importance of protecting our planet. This initiative encouraged students and staff to actively participate in planting trees, thereby contributing to a greener and healthier environment.

The event focused on highlighting the vital role of trees in combating climate change, reducing pollution, and improving biodiversity. Planting trees is a simple yet powerful way to protect the environment and ensure a better future for generations to come.

The drive included educational sessions on environmental conservation, tree plantation activities, and guidance on caring for the saplings to ensure their healthy growth.

Objectives:

1. To create awareness about the importance of trees in maintaining ecological balance.
2. To encourage students and staff to actively participate in environmental protection.
3. To increase greenery in and around the college campus and nearby areas.
4. To contribute towards combating climate change and reducing pollution.
5. To inspire a long-term commitment to nurturing and protecting planted saplings.

Outcomes:

1. Increased awareness and enthusiasm among participants about environmental conservation.
2. Plantation of over 200 saplings, contributing to a greener campus and surrounding area.
3. Strengthened community participation and environmental responsibility.

4. Positive steps towards reducing the carbon footprint and promoting sustainability.
5. Building a culture of eco-consciousness and active participation in green initiatives.

Event Highlights:

1. The event began with a short session by faculty members, highlighting the significance of trees and environmental care.
2. Over 15 saplings were planted by enthusiastic students, faculty, and volunteers in designated areas of the campus.
3. Participants displayed great dedication, making the event lively and impactful.
4. The drive concluded with a pledge to care for the saplings and promote green initiatives throughout the year.

Conclusion:

The Tree Plantation Drive 2025 was a remarkable step towards environmental sustainability. By planting trees, participants not only contributed to a greener campus but also took an active role in combating climate change and protecting the planet. Every sapling planted represents hope for a cleaner, greener, and healthier future. The event successfully inspired participants to take continuous action in safeguarding nature.

Plant a tree today, for a better tomorrow!

Acknowledgment:

The Leo Club extends heartfelt gratitude to the college management, faculty members, students, and volunteers for their support and contributions in making this event a grand success.

Your active participation and encouragement made this initiative truly impactful.
