Student Coordinators: Mr Vincent Allwyn, Ms Tanushree R M,

Ms Shireesha G and Ms Venice Carina M

Brief Description of the Event:

The college campus came alive with excitement and enthusiasm on 29th August 2026 as the new batch of students gathered to celebrate Freshers Day 2026. The event was organised to warmly welcome the freshers and provide them with an enjoyable platform to interact with their peers, showcase their talents, and begin their college journey with confidence and enthusiasm. The celebration created a lively and welcoming atmosphere for the students and the entire college community.

The programme commenced with an engaging emcee introduction video, which set an energetic tone for the event. This was followed by the much-awaited Freshers Day and Cosmoverse reveal, adding excitement and anticipation among the students. The celebration then continued with a variety of entertaining performances, including fashion, dance, drama, and music. The performances showcased the creativity, confidence, and talents of the students and kept the audience engaged throughout the programme.

The main highlight of the celebration was the Freshers Day competition, which was conducted in three exciting rounds. The first round was the Fashion Walk, where the participants showcased their confidence, personality, presentation,

and stage presence. The second round was the Talent Round, which provided the participants with an opportunity to display their individual talents and creativity. The final round was the Questionnaire Round, where the participants were assessed on their communication skills, confidence, presence of mind, and ability to respond to questions.

An alumni member served as the judge for all three rounds, evaluating the participants based on their overall performance, confidence, talent, presentation, and responses. The judgement followed the completion of all three rounds and brought the competition to an exciting conclusion.

The event concluded with a heartfelt thank-you to everyone who contributed to the successful organisation of Freshers Day. The students' enthusiasm and active participation made the celebration lively, enjoyable, and memorable. Overall, Freshers Day 2026 allowed new students to showcase their talents, step out of their comfort zones, interact with their peers, and create lasting memories, marking a joyful and encouraging beginning to their college journey.
